REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: While Nagato meets a number of the limitations of the claims, as pointed out in the previous Office Action, Nagato fails to teach that the machine-readable code is provided through alterations to data representing imagery or graphics that are not readily apparent to a human observer, as stipulated by newly added claims 37 and 39. In addition, Nagato further fails to teach that the code can be detected from scan data generated by visible light scanning of the article, as required by newly added claims 38 and 40. Finally, Nagato fails to teach that the second portion of the code include information identifying a jurisdiction or issuer, as now required by claims 21 and 29, as amended. Therefore, the claimed invention is allowable over the prior art.
